THE UNTRIED SOLUTION

Since the end of World War II, everything has been tried to bring peace on Earth and to restore the environment, but are we any closer to World Peace? Has the environment been restored? Why not? Maybe one fundamental solution has not been tried: **Changing the Calendar.**

Yes, to change the calendar is to effect a profound and fundamental change in human consciousness. Only a change in consciousness will bring about the creative solutions our world so sorely needs today. By changing the calendar we use every day, will we change our everyday consciousness and establish a new time on Earth.

Have you ever considered the effects of the current 12-month calendar on our beliefs, customs, choices, behaviors, and actual relationship with time? Could humanity benefit by simply attuning to the natural standard of 13 Months/Moons of **28 days** each?

We invite you to explore **7 KEY FACTS** to understand the importance of **Calendar Reform NOW.** To learn more please visit:

13 REGULAR MONTHS OF 28 DAYS +1 DAY OUT OF TIME
13 x 28 = 364 + 1 = 365 DAYS OF THE YEAR

1.

THE CALENDAR IS THE OPERATIONAL SYSTEM OF CIVILIZATION.

2.

OUR CURRENT CALENDAR IS NOT A PRACTICAL TOOL TO MEASURE THE MOST BASIC CYCLES OF TIME.

3.

THE CALENDAR IS THE MOST FUNDAMENTAL ORGANIZING PRINCIPLE OF AN ADVANCED SOCIETY.

4.

THE CURRENT CALENDAR HAS A VERY DETRIMENTAL EFFECT ON OUR MENTAL AND PHYSICAL HEALTH.

5.

WE ARE AT AN EVOLUTIONARY CROSSROADS ON EARTH.

6.

CALENDAR REFORM IS NOT A NEW CRAZY IDEA.

7.

CALENDAR REFORM IS A REVOLUTIONARY PEACE INITIATIVE.

"The accurate measurement of Time is a measure of the intelligence of Man. A sense of the importance of Time is a measure of Man's Morality."

— Lawrence Fawcett —

ENVISIONING A **NEW OPERATIONAL SYSTEM** FOR THE **FUTURE.**

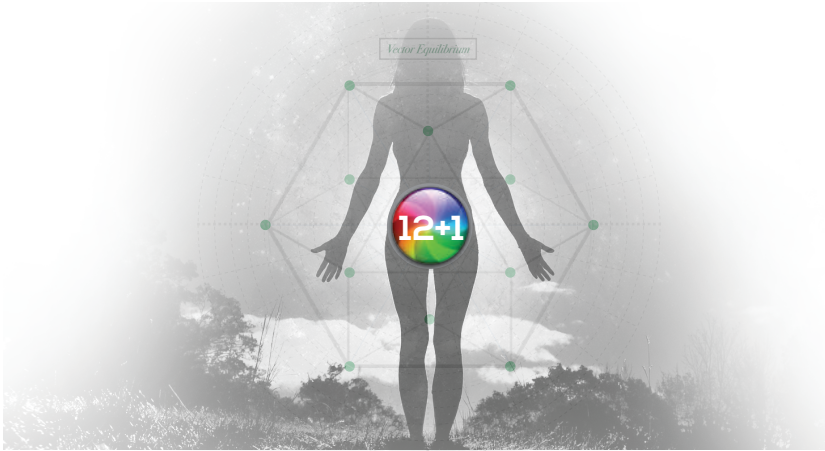

Humanity is at an evolutionary crossroads. Old systems and outdated ways, developed in the past, cannot support a **whole-systems approach** for the future that is genuinely inclusive and beneficial to ALL.

The calendar presently in use as a civil standard worldwide, for over 400 years, is a prime example of this. This calendar represents the **operational system of civilization**, and, yet, we rarely consider its effect upon our lives. How can a **fundamental change within this operational system** positively impact our relationship with ourselves and with others, and, ultimately, foster greater harmony and coherence between the human species and Nature (the biosphere)?

We invite you to explore the possibilities that can open for us (individually and collectively) by simply adopting a **NEW harmonic standard** for measuring our most valuable asset: **TIME.**

*“You never change things by fighting the existing reality.
To change something, build **a new model**
that makes the existing model obsolete.”*

~ R. Buckminster Fuller

COSMOMETRY: A **WHOLE-SYSTEM** UNIVERSAL APPROACH.

Mathematics is the language of Nature. At a fundamental level everything in creation is governed by the same fractal geometrical structures. **COSMOMETRY** is the study of those fundamental patterns, structures, processes and principles that are at the **foundation of reality**, and the application of this knowledge in the design of human social and technological systems. This new field of study is helping us to reach a unified understanding of cosmic coherence to new levels of integration and wholeness.

How can we make the best use of these simple and fundamental truths present in **ALL Nature** to develop practical applications that engender more efficient technologies and **whole-system-based solutions** across all sectors of human concern?

Let's explore the most BASIC application of this new vision of the cosmos through its most elegant and efficient structure: **The Vector Equilibrium** and the **12+1 model**.

NATURE'S OPERATIONAL SYSTEM: THE UNIVERSAL **12+1** MODEL.

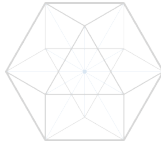

*"The **12-around-1 framework** is fundamental as it is found in the cosmometry of both the **Vector Equilibrium** and Icosahedron – two of the **primary geometric configurations of the cosmos**. In essence, the concept of a **12-around-1 whole-system model** of the basic areas of human concern has the intention of providing an organizing framework that can assure that, as we apply ourselves to the design and application of solutions to our worldly challenges, we do so with a minimum-sufficient set of considerations at the outset and throughout the whole process. Each sector can be seen as a fractal "whole" unto itself, and yet each one is always in relationship to the others and the dynamics of the whole as it evolves over time.*

*The 12 sector names represent the most generalized, broad-strokes **primary categories of human concern**. Each one can of course be expanded into a vast array of sub-categories pertinent to their respective domains (some of which may even apply across multiple sectors). At the **center** is Worldview which is a synthesis of all the sectors in a synergetic whole that informs the perceptions and agreements that participants use to collaborate in whole-system design and problem-solving processes. In the version on the next page, **Whole System Design** is also included in the center to represent the aspect of applying this model that is specifically oriented to discerning and attending to the dynamics and interrelatedness of the sectors when combined as a whole."*

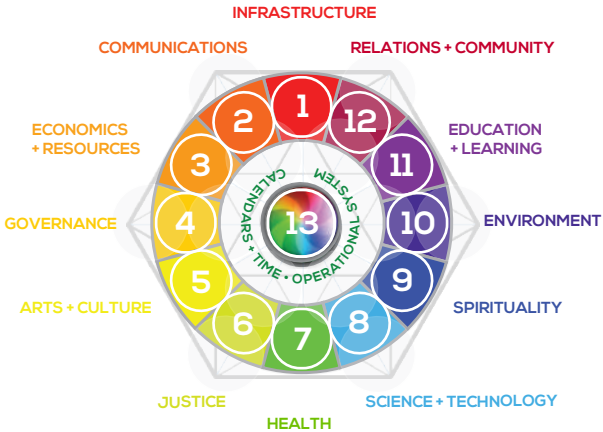

APPLIED SYNERGETICS 101:

"Early in the 20th century, inspired by the emerging realization in science that all manifestation in the universe is "energy" and "vibration", Buckminster Fuller began experimenting with models of structural forms in the quest to discover how nature coordinates this energy to create all the beauty and magnificence of life. Fuller called himself a "comprehensivist", one who holds a comprehensive perspective that seeks to synthesize apparent "parts" into an ever-unifying wholistic understanding. In his quest he discovered what he referred to as "nature's coordinate system", the geometric articulation of energetic relationships, which he named Synergetics."

SOURCE: www.cosmometry.net/12-around-1

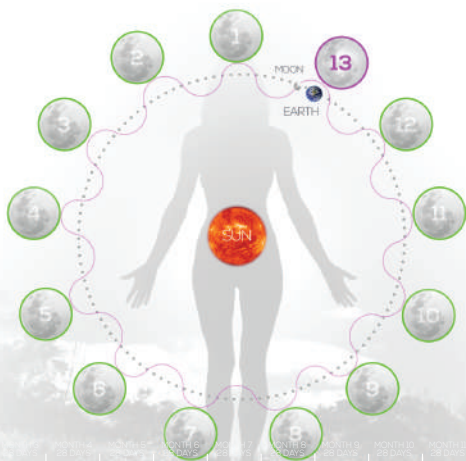

“The Vector Equilibrium (VE) is the most primary geometric energy array in the cosmos. It is more appropriately referred to as a “system” than as a structure, due to it having square faces that are inherently unstable and therefore non-structural.”

“If the Julian/Gregorian calendar was to be offered as a new device for measuring time, we, with our present knowledge and state of living, would reject it as something utterly impractical, lacking in harmony and order, unbalanced and irregular, too clumsy a calendar to make calculations by...”

– Broughton Richmond
Time Measurement and Calendar Construction

THE **12+1** LUNAR+SOLAR+TERRESTRIAL OPERATIONAL SYSTEM:

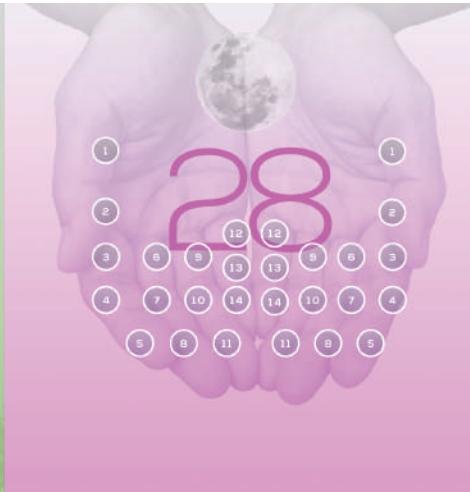

The **13**-Month, **28**-Day calendar is a calendrical system that has been used by numerous cultures and civilizations prior to the **"ERROR IN TIME"**: the adoption of an irregular and inaccurate unit of measure known as the **month**. All others scientific units of measure (temperature, distance, size, sound, weight, pressure etc.) are part of a regular and logical measurement system.

Since the evolution of consciousness is coordinated by time, the **"ERROR IN TIME"** is keeping the human species disconnected from **Nature's** cycles and trapped in an **artificial** and **irrational** perception of time. We cannot continue to operate by a calendrical model that fosters entropy and decay.

A new calendar based on **Nature's** operational system provides an ideal framework for a new civilization to flourish, as it mirrors **Nature** at its central core.

THE **12+1** HUMAN OPERATIONAL SYSTEM:

The numbers **13** and **28** are embedded into our biology. The human skeletal system, providing the structural form for the body to move is comprised by **13** major joints: 2 ankles + 2 knees + 2 hips + 2 wrists + 2 elbows + 2 shoulders = **12 + 1** neck = **13**.

Similarly, the phalanges or finger bones are 14 in number; 3 for each finger, and 2 for the thumb. 14 phalanges x 2 hands = **28**

The human fertility cycle is also **28 days**. This cycle has been disrupted at a mass-scale by the irregularity of the gregorian calendar. The 13-month calendar re-harmonizes human bio-rhythms with the cycles of Nature, particularly the menstrual cycle. By re-attuning ourselves to an accurate timing standard, we are correcting the **"ERROR IN TIME"**, realigning with our own internal nature and moving in the direction of evolution. It is of vital importance that we make the conscious choice to **UPGRADE** to a calendar system that supports a sustainable future and is based on a scalable model that can be applied across the whole spectrum of human interactions, from the micro to the macro levels. We invite you to explore with us **13 "system upgrades"** or updates to our current operational system that will foster greater harmony within ALL its different components...

TIME + MIND + NATURE = HARMONY

Simple yet elegant in its symmetry and harmony, the 13-Month, 28-Day calendar a.k.a the 13 Moon calendar* synchronizes solar and galactic cycles on July 26th, correlating to the traditional heliacal rising of the star Sirius. This is the reason why the first day of the 13-Month, 28-Day calendar year (Magnetic Moon-Day 1) coincides with July 26th. For many ancient peoples, including the Dogon and Egyptians of Africa, and the Maya of Central America, the great star **SIRIUS** (also known as the "**Dog Star**"), the **brightest star in the sky**, was the **galactic marker**.

The 13 Moon calendar was originally known by the Maya as the Tun Uc, the "moon count" or "count of seven" ($7 \times 4 = 28$). Note that it takes the moon 28 days to orbit the Earth; it makes this orbit 13 times each year. The standard of measure is the 28-day cycle, called a moon, because it is the median between the 29.5-day synodic cycle of the moon (new moon to new moon) and the 27.3-day sidereal cycle of the moon. Hence, it is a measure of Earth's solar orbit using the 28-day lunar standard. This creates a perfect orbital measure of 13 moons of 28 days, totaling 364 days, or 52 perfect weeks of 7 days each. Because the 365th day is no day of the moon or week at all, it is known as the "day out of time" - a day to celebrate peace through culture worldwide.

**The words 'month' and 'moon' are used interchangeably throughout this calendar, as the word month originally derived from the word moon.*

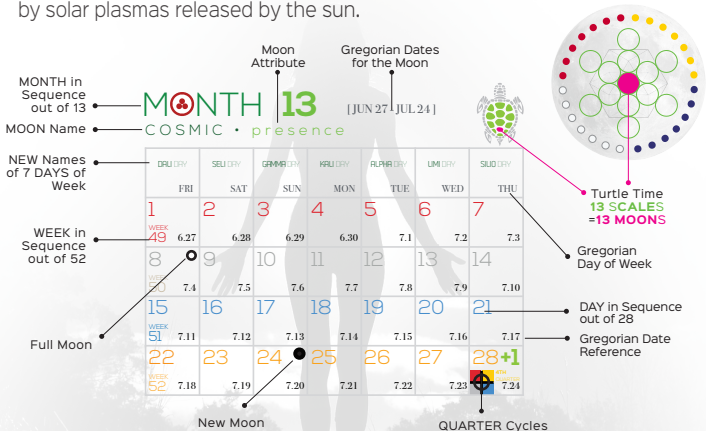

HOW TO USE THIS CALENDAR

Just begin!! The 13-Month, 28-Day transitional calendar includes the dates of the Gregorian calendar in the bottom right-hand corner of each day, as a reference. Find today or look up your own birthdate. For example, August 16th on the Gregorian calendar is Day 22 of the Magentic Moon of Purpose (Month 1).

Each of the thirteen months (moons) is coded with an attribute for personal and planetary attunement, by which we begin to synchronize our consciousness with the galactic cycles and creative patterns in Nature. For example, the **Magnetic Moon's attribute is Purpose**. Familiarize yourself with the attribute for each month and you will connect at a deeper level with the flow and rhythm of the creative sequence in the 13:28 frequency

The four weeks of every moon represent each of the four cardinal directions, coded by the colors **red** (week 1 - east/initiatives), **white** (week 2 - north/refines), **blue** (week 3 - west/trans-forms), and **yellow** (week 4 - south/ripens), in a counterclockwise direction.

The seven days of the week are named after seven radial plasmas: Dali-day, Seli-day, Gamma-day, Kali-day, Alpha-day, Limi-day and Silio-day. Plasmas are mixtures of ions and electrons found in Nature, and are strongly influenced by electric and magnetic fields. The ionosphere within Earth's upper atmosphere is, itself, a plasma. These plasmas interact with, and impact, our own physical bodies and energetic fields, similar to how planet Earth is being directly impacted by solar plasmas released by the sun.

INFRASTRUCTURE

FROM HIERARCHY TO HOLARCHY

The 13-Month, 28-Day Calendar fosters decentralized **holistic/whole system models** for greater **efficiency**. Nature's cycles are in "nested **holons**" of shorter cycles fitting within larger cycles in mathematical perfection. As we model and synchronize with the **holonomic structure** of Nature's cycles, our cognition and consciousness evolves, allowing the emergence of **holarchic organizational structures**.

ECONOMICS + RESOURCES

FROM SCARCITY TO ABUNDANCE

Our current economic system is based on the unfortunate equation **Time = Money**, leading to a worldview ruled by profit at the expense of human rights and Nature. Over time, this has resulted in the disproportionate distribution of resources for the vast majority. **Abundance is a law of Nature.** When we make decisions in harmony and synchronization with Nature, then we are operating in accordance with Natural Law, allowing for the naturally abundant flow of goods and services, within a greater organic sense of interconnectedness of the human family and ALL Life.

GOVERNANCE

FROM

AUTHORITY

TO

SELF-GOVERNANCE

Most of today's governmental institutions are based on a social paradigm of dependence on **external authorities**. Holistic thinking in harmony with the holonomic structure of the Cosmos, activates the **self-organizing principle**, which evolves towards greater levels of **self-governance**. This self-organizing principle awakens the human capacity to operate in **Natural Law** and honor **Universal Sovereignty**. Being effective is about doing the right things, while being efficient is about doing things right. **Changing our calendar is the right thing to do NOW**, in order to start doing things right!

ARTS
+ CULTURE

FROM

TO

“TIME IS MONEY”

“TIME IS ART”

The 13 month, 28-day calendar is based on an **aesthetic** and **holistic** vision of the cosmos that fosters a new paradigm rooted in **mathematical harmony** and centered around the fact that our lives are an act of **creative expression** throughout time.

Nature is the greatest Artist. Nature always manifests in elegant patterns, in perfect **mathematical proportions**. We may observe the harmonics of music and **sound**, the patterns of waves, the form of the spiral, the platonic solids, and the entire category of knowledge known as “sacred geometry.”

JUSTICE

FROM INEQUITY TO EQUALITY

The 13-Month, 28-Day Calendar allows for a fresh restart that is freed from an obsolete banking system, largely responsible for the inequity and great disparity between the rich and the poor. This financial system is rooted in the Gregorian calendar and the imbalance it engenders is a function of its irregularity.

Just as blockchain technology is poised to significantly alter global issues around wealth inequality, corruption, lack of transparency, and centralization of power, so too will changing the calendar help humanity establish a new worldview and sense of real equity and fairness where there is enough for all.

HEALTH + WELLNESS

FROM **DISEASE** TO **BALANCE**

The human fertility cycle is **28 days**, but it has been disrupted at a global scale by the irregularity of the Gregorian calendar. The 13-Month, 28-Day Calendar **re-harmonizes human bio-rhythms** with the cycles of Nature, particularly the **menstrual cycle**. All of Nature's cycles fit in mathematical interrelation with each other, from the micro-cosmos to the macro-cosmos.

By adopting the **regularity** of 28 days thirteen times per year as a new harmonic agreement in time, we may begin to consciously participate in the **rebalancement** of feminine and masculine qualities within ourselves as well as on a planetary scale.

SCIENCE
+ TECHNOLOGY

FROM IRRATIONAL TO RATIONAL

There is no **logical** or **scientific** relationship between the exact length of the year and the use of the Gregorian calendar to measure and divide that length. Nonetheless, it is held up as the most perfect instrument for dividing time, and is in use worldwide as the official standard. The 13-Month, 28-Day Calendar is a **scientifically accurate** calendar, based on the FACT that the moon orbits the Earth **13 times** during one solar year, rather than 12. The correction of this simple yet profoundly disrupting "**ERROR in TIME**" of the Gregorian calendar will allow the human species to naturally make wiser technological choices.

SPIRITUALITY

FROM

TO

MATTER OVER SPIRIT

SPIRIT OVER MATTER

We are not just humans, we are also beings who live in a spiritual dimension as well. In fact, it is the **spiritual dimension** and spiritual intelligence that sets us apart as a cosmic species. The spiritual dimension is universal. It runs throughout the universe as a layer of the universal mind. The spiritual dimension also defines reality as a **sacred order**, a realm completely invested with spiritual power or energy. True spirituality does not separate the life of the everyday world from the exalted truths of divine revelation. **In true spirituality, everything is sacred.**

ENVIRONMENT

FROM
EGO

TO
ECO

The reintegration of human consciousness with Nature's cycles is vital, and a prerequisite for **planetary ecological balance** and a new era of an ecologically **sustainable future** and **regenerative culture**.

The 13-Month, 28-Day calendar fosters a consciousness that naturally integrates the Human with Nature, instead of the dominance of the Human over Nature. The integration of Human with Nature is thereby natural and does not require a theoretical effort.

COMPETITION

COOPERATION

The 13-Month, 28-Day calendar is a **synchronization tool** that fosters organic Cooperation rather than Competition. Its adoption can place human society, including countless customs and procedures, in **resonance** with the **natural timing** of the **Moon**, the **Sun**, and **Sirius**, our brightest star, and serve as a synchronization tool with the **Noosphere** (the thinking layer of Earth).

Use of this calendar promotes greater self-awareness and sense of the interrelatedness of all things and the impact we can have when we **work together with Nature**.

CALENDAR SYSTEMS

FROM **DECAY** TO **EVOLUTION**

The 13-Month, 28-Day calendar engenders increased experiences of **harmony** and **synchronicity** as the driving forces behind the next stages of our evolutionary path.

The **Day Out of Time** marks the last day of the 13-Month, 28-Day calendar occurring every **July 25th**, on the day before the Sirian New Year, signaled by the heliacal rise of the star Sirius on the horizon. This is no day of the week or month at all, but a day to celebrate "Peace through Culture".

THE ROAD TO CALENDAR REFERENDUM 2020 HOW CAN YOU HELP?

1. CHANGE YOUR CALENDAR.

As more people switch their minds to attune to a natural harmonic standard, the underlying basis of practically everything we know in society will start to change. The more human beings whose minds and bodies are attuned, the more harmony we will be able to experience individually and collectively in the world. Changing the calendar is the Untried Solution.

2. SIGN THE PETITION FOR CALENDAR REFERENDUM 2020.

Calendar Reform is essential to the rights of human beings and Nature, because by harmonizing with the natural cycles of time we can restore human mental health and harmony in relation to the 'circle of life.' Beyond all ideologies, a correct measurement of time is a basic unifying factor of a sane and self-aware civilization. To sign and support this open petition for Calendar Referendum 2020 and Declaration of Universal World Peace, and to ensure that humanity adopt and implement the 13-Month, 28-Day Calendar as a new Harmonic Standard by 2020, please go to:

<https://www.change.org/p/un-secretary-general-calendar-referendum-2020-declaration-of-universal-world-peace/>

3. BE PEACE! The 13-Moon/Month Calendar is a PEACE INITIATIVE. To live by the 13-Moon, 28-Day is to live in harmony with the cycles that regulate Life in nature. When you live by this frequency, you become a walking embodiment of harmony living in tune with Nature. This Peace initiative is deeply inspired by the values promoted by the Banner of Peace.

*“Where there is peace, there is culture.
Where there is culture there is peace.”*

– Nicholas Roerich

4. DONATE. If you appreciate this initiative and would like to see it continue, please visit www.13months28days.info/donate to contribute with any amount which you feel inspired. Your contributions will be destined to create educational materials for the Calendar Referendum Initiative 2020.

5. SHARE YOUR TIME. We are now looking for time-donors who feel inspired to help in the areas of Social Media/Content Management, Crowd Funding, Filming-Editing, iOS/Android App Development, and E-Mail Marketing. If you feel inspired to help by donating your TIME for the benefit of the planet, or contributing in any other way, please drop us a note at volunteer@13months28days.info.

6. SHARE THE INFORMATION. If you find this information revolutionary, inspiring or useful, please do your best to share it online via your favorite social media outlets. Bring the subject into everyday conversations with family, friends or co-workers. The more we talk about this, the more it will become a reality!

7. CONTACT US. The Global Council for Calendar Awareness (GCCA) is an autonomous educational and cultural platform, born in 2016 with a clear mission: to educate Humanity about the effects of calendars on consciousness, and re-introduce the 13-Moon x 28-Day +1 Matrix as the most basic, simple and practical application of an entire new science describing the Mathematics of Time.

We encourage everybody to participate in this most powerful MENTAL REVOLUTION in time!

*Change your calendar and your **mind** will change,
Change your mind and your **society** will change,
Change your society and
your **planet** will change.*
